TOWN OF GREENVILLE TO HOLD SUSTAINABILITY & PLANNING WORKSHOP

The Town of Greenville is excited to announce that it will hold a workshop on Sustainability and “Smart Growth” Comprehensive Planning. The Town is one of the first communities in the Fox Cities to hold such a workshop, and the public is encouraged to attend to learn more about how sustainability principles could be utilized in their community. The meeting is being held in conjunction with the Town’s “Smart Growth” planning process. Greenville has contracted with the East Central Wisconsin Regional Planning Commission to guide the “Smart Growth” planning process and plan development.

As a concept, sustainability is often defined as “meeting the needs of the present without compromising the ability of future generations to meet their own needs.”¹ Jim Resick, Community Development Education for the Outagamie County UW-Extension, will facilitate the workshop. The workshop is designed to allow the Comprehensive Plan Steering Committee, and other community members, to explore ways to integrate sustainability principles into the nine elements of the Town’s “Smart Growth” Comprehensive Plan.

The Sustainability and Planning Workshop will be held at the Greenville Town Hall on **Wednesday, February 20, 2008 from 5:30 PM to 7:30 PM.** **The Greenville Town Hall is located at W6860 Parkview Drive.**
