COMPREHENSIVE PLAN STEERING COMMITTEE TO DISCUSS FUTURE LAND USE FOR THE TOWN OF GREENVILLE

The Town of Greenville Comprehensive Plan Steering Committee will meet to review and discuss a preliminary future land use map. As a requirements of Wisconsin's "Smart Growth" legislation, future land use maps help communities make decisions regarding where and what kinds of development they would like to see within their boundaries. Thoughtful land use planning can help create cohesive communities that promote multi-modal transportation, create areas for business and industrial development, and preserve productive agricultural areas and sensitive natural features. The meeting will be held at 5:30 pm on Tuesday, May 6, 2008, at the Greenville Town Hall (W6860 Parkview Drive). The agenda for this meeting is available for review on the project website (<http://www.eastcentralrpc.org/plangreenville>; see "Calendar"). The project website provides further information regarding all steering committee meetings, public meetings, draft plan chapters, and the overall comprehensive planning process.

The Town of Greenville has contracted with the East Central Wisconsin Regional Planning Commission (ECWRPC) to serve as the staff to guide the Town's Smart Growth planning process. In addition to Comprehensive and Land Use Planning, other services provided by the Commission include: Transportation Improvement and Corridor Planning; Open Space, Recreational and Environmental Planning; Economic Development; Demographic Information and Projections; Technical Assistance to Local Governments; Geographic Information Services and Aerial Photography Distribution.
