WHERE?

The East Central Regional Planning Commission is currently updating its regional plan to meet new standards established in the Wisconsin "Smart Growth" legislation (1999). East Central represents 10 counties: Calumet, Fond du Lac, Green Lake, Marquette, Menominee, Outagamie, Shawano, Waupaca, Waushara, and Winnebago.

Working together with citizens, county and local governments, and interest groups, the objective is to develop a vision for the future of the region and prepare a plan that will enable us to achieve that future.

You are invited to attend one of the regional public information meetings listed above. The purpose of each meeting is to update the public on the status of current planning activities, and seek public input on what we've done so far.

By coming along you will be able to ensure that the issues that are important to you are on the table for discussion. You can help plan for the future.
